From: Jeremy Tyson (Space Committee) and Richard Laugesen (DGS)  
To: Post-comp PhD students assigned to Coble Hall  
Re: Study spaces and computing facilities  

The Coble Hall basement renovation is behind schedule. We expect to know a timeline for completion by the time classes start. Until then, the Mathematics Department has arranged additional study spaces and computing facilities.

Study spaces

Mathematics Common Room (321 Altgeld Hall) is open on weekdays until 5pm.

147 Altgeld Hall is reserved for PhD students and funded MS students: available Monday-Friday 5-10pm and Saturday-Sunday 9am-10pm, August 24 - December 10. Altgeld Hall should be unlocked during these hours. If not, then please notify Lori Dick <l-dick@illinois.edu>.

101 or 103 Oil Chemistry (at 508 S. Sixth St.): until Coble Hall is ready, you may share desks in Oil Chemistry. Get a key from Paula Luesse in 273 Altgeld Hall.

Mathematics Library is available for quiet study, although it tends to fill up with undergraduates. The stacks also have a few desks. Grainger Library has many study areas.

The elevator lobbies in Illini Hall on the 2nd and 3rd floors are a good venue for a working group or small office hour. For larger office hours, reserve a classroom from Lori Dick <l-dick@illinois.edu>.

Lockers are available in Altgeld Hall (southeast basement), for storing books etc. To reserve a locker, take your I-Card and $5.00 (refundable deposit) to Mark Drennan in the Business Office, 221 Altgeld Hall.

Who to contact

Business Office, 221 Altgeld Hall:  
Adrienne Harris <harris2@illinois.edu> for maintenance, cleaning issues.

Space Committee, 329 Altgeld Hall:  
Jeremy Tyson <Tyson@illinois.edu> for space suggestions.

Director of Graduate Studies, 259 Altgeld Hall:  
Richard Laugesen <Laugesen@illinois.edu> for academic issues.
Copier, computing and printing facilities

250 Altgeld Hall copiers: open regular business hours. You can print from a laptop or tablet to the copiers in the mailroom, by going to one of the following two websites while on a secure campus connection (e.g. IllinoisNet):
- http://ahmailroom1.math.uiuc.edu (for middle copier)
- http://mailroom2.math.uiuc.edu (for copier farthest from door)
From the copier’s website, print as follows:
1. Click the "Print" tab.
2. Upload the file to print.
3. Set options (number of copies, 1 or 2 sided printing, stapling, etc).
4. Enter your User ID (under "Accounting") - the same four digit code (obtained from the main office) that you use on the physical copier.
5. Click "Submit Job" at the top of the webpage.
Please do not “print and forget” your quizzes or exams - always pick up the printed material immediately!

325 Illini Hall copier: open 7am-10pm Monday-Friday. No printing capability. If the copier does not recognize your four digit code, then ask Lori Dick <l-dick@illinois.edu> for help.

123 Altgeld Hall computer lab: open to all Mathematics graduate students. 8 computers and a printer.

08 English Building computer lab (southeast basement): open to all students. It can be entered from the basement, or through the separate exterior entrance on the south side of the English Building, which remains open late at night when the rest of the building is closed.
Lab machines are Windows and Mac (dual boot), and can be used for web browsing, email, Mathematica, Matlab, R and SAS. They do not currently have TeX. Printing is charged to your student account.
