Applications are invited for one full-time tenured/tenure-track faculty position (Assistant, Associate or Full Professor) in Actuarial Science. The start date is flexible, with a preference to start no later than August 16, 2017. Successful candidates are expected to maintain an active and independent research program, provide service to the department, the university and the profession, and teach effectively at both the undergraduate and graduate levels. The University of Illinois has one of the leading undergraduate actuarial science programs in the United States. We seek candidates to help us build on this record of excellence as we develop commensurate programs for graduate education and research in actuarial science.

Applicants must have a Ph.D. (or equivalent) in actuarial science or related areas such as risk management and insurance, finance, or another subject appropriate for actuarial science. Preference will be given to applicants who are Associates or Fellows of one of the professional actuarial societies, or who have made exam progress toward membership. To be considered for a tenured appointment, the applicant must present a documented record of leadership in research and success in teaching.

Applications should be submitted electronically through https://www.mathjobs.org/. A complete application will include: a cover letter and curriculum vitae with a list of publications. Applicants are requested not to provide names of references at this time: the department will solicit letters of reference after the review of applications.

To ensure full consideration, applications need to be received by April 15, 2016. Applicants may be interviewed before the closing date; however, no hiring decision will be made until after that date. Questions about the position or application procedures may be directed to Caitie Bruning, cbreeze@illinois.edu. Salary and teaching load are competitive. The University of Illinois conducts criminal background checks on all job candidates upon acceptance of a contingent offer. The University of Illinois has an active and successful dual-career program for academic couples.
