Applications are invited for one or more full time faculty positions to commence approximately August 16, 2015 at the tenure-track (assistant professor) level. In exceptional cases the department will consider a tenured appointment (associate professor). The department is interested in applicants in all areas of mathematics. Successful candidates are expected to teach effectively at both the undergraduate and graduate levels, establish and maintain an active and independent research program, and provide service to the department, the university and the profession. Salary and teaching load are competitive.

Applicants must have a Ph.D. (or equivalent) at time of appointment, and are expected to present evidence of excellence in research and teaching. To be considered for a tenured appointment, the applicant must present a documented record of leadership in research and excellence in teaching.

Applications should be submitted electronically through https://www.mathjobs.org/. A complete application must include the AMS Standard Cover Sheet for Academic Employment, curriculum vitae including email address, a publication list, a research statement, and the names and contact information for three professional references. An additional reference addressing teaching is strongly recommended. It is strongly suggested that reference letter writers upload their letters before the deadline. Reference letter writers should submit their letters online through http://mathjobs.org/ If they are unable to do so, they may send their letters to the following address: Search, Department of Mathematics, University of Illinois at Urbana-Champaign, 1409 West Green Street, Urbana, IL 61801, USA; tel: (217) 333-3351 search@math.uiuc.edu.

Complete applications must be received by November 3, 2014. Late applications cannot be considered. Applicants may be interviewed before the closing date; however, no hiring decision will be made until after the closing date of November 3, 2014.

The University of Illinois has an active and successful dual-career program for academic couples.

Illinois is an equal opportunity employer and all qualified applicants will receive consideration for employment without regard to race, religion, color, national origin, sex, age, status as a protected veteran, or status as a qualified individual with a disability. Illinois welcomes individuals with diverse backgrounds, experiences, and ideas who embrace and value diversity and inclusivity. (www.inclusiveillinois.illinois.edu)
