

## Department of Mathematics Contribution Form

Today, more than ever, the Department of Mathematics relies on the financial support of its alumni and friends. There are many different ways that you can support the department in its educational and research missions. The funds listed below show the variety of important activities, from student fellowships and scholarships, prizes and awards for undergraduate and graduate students, support for the library, or funds for maintaining Altgeld Hall. Giving in support of these and other important missions truly makes a difference by promoting excellence in the Illinois Department of Mathematics. If you would like more information about giving to the Department of Mathematics, please contact Robin Fossum at the University of Illinois Foundation, (217) 333-7344, or Patrick Hayes, Associate Director of Development LAS, (217) 244-5381.
